

Commercial Wastewater Accessories

GRUNDFOS PIP ACCESSORIES

Grundfos PIP wastewater accessories compliment the Grundfos PIP pumps and are used in sump/sewage/effluent pumping applications. The available accessories include Base Elbow Rail System, Intermediate Guide Rail Bracket, Float Switches and Float Switch Accessories, Lifting Chains and Lifting Chain Accessories, and Sump Cover Plate Lids

Base Elbow Rail System

99345091 KIT,2.00" Base Elbow Rail System

The 2" Base Elbow Rail System is designed to simplify installation and removal of 2" discharge Grundfos PIP pumps. The design allows for pump service without the need to disconnect plumbing or physically enter the basin.

Kit includes the following:

- (1) Ductile CI Pull-Out Flange
- (1) SS Lower Guide Plate Bracket
- (1) Pump Adapter Flange & Hardware
- (1) SS 5/16" Lifting Eyebolt
- (2) BUNA-N O-Rings
- (1) SS Upper Guide Rail Bracket
- (1) Installation Guide

Intermediate Guide Rail Bracket

99346277 Bracket,Intermediate Guide Rail .75 in

Intermediate Guide Rail Bracket is used when basin is more than 15' and additional stability is needed for guide rails.

Float Switches

99346336	Mech. Float Switch,NO, 10 amp,120v,30'
99391730	Mech. Float Switch,NO,NA,10amp,120v,WTD,25'
99398822	Mech. Float Switch,NO,WA,15amp,120v,1/2HP,PB,WTD,20'
99398834	Mech. Float Switch,NO,WA,15amp,120v,1HP,PB,WTD,20'
99398840	Mech. Float Sw.,NO,WA,25a,1.5@120/3@240v,NP,WTD,20'

Mechanical float switches are used for simple and accurate water level control in many applications including sump/sewage/effluent water applications. Mechanical float switches are available with Normally Open configuration and available in 10, 15, and 25-amp ratings. Cord lengths are available in 20', 25', and 30' lengths.
