| | Product No.: 99076156 | | | | |
| | Vertical, multistage centrifugal pump with inlet and outlet ports on same the level (inline). The pump head and base are in cast iron | | | | |
| | – all other wetted parts are in sta | ainless steel. A cartridge shaft seal ensures high reliability, safe handling, and easy access and | | | |
| | service. Power transmission is v | ia a rigid split coupling. Pipe connection is via combined ANSI-JIS flanges. | | | |
| | The pump is fitted with a 3-phas | e, fan-cooled, permanent-magnet, synchronous motor. | | | |
| | | as IE5 in accordance with IEC 60034-30-2. | | | |
| | The motor includes a frequency | converter and PI controller in the motor terminal box. This enables continuously variable control of | | | |
| | | nables adaptation of the performance to a given requirement. | | | |
| | The operating panel on the moto | or terminal box features a four-inch TFT display, push-buttons and the Grundfos Eye indicator. | | | |
| | | | | | |
| | | d user-friendly interface to all functions. | | | |
| | I ne push-buttons are used to na | avigate through the menu structure to access pump and performance data on site and enable ell as setting of pump to "Min." or "Max." operation or to "Stop". | | | |
| | | en as setting of pump to min. of max. operation of to Stop . | | | |
| | | | | | |
| | Communication with the nump is | s also possible by means of Grundfos GO Remote (accessory). The remote control enables further | | | |
| | settings as well as reading out o | f a number of parameters such as "Actual value", "Speed", "Power input" and total "Power | | | |
| | consumption". | | | | |
| | | | | | |
| | The Grundfos Eye indicator on the | he operating panel provides visual indication of pump status: | | | |
| | "Power on": Motor is running (rotating green indicator lights) or not running (permanently green indicator lights) | | | | |
| | • "Warning": Motor is still running (rotating yellow indicator lights) or has stopped (permanently yellow indicator lights) | | | | |
| | | ed (flashing red indicator lights). | | | |
| | The terminal box has a number of inputs and outputs enabling the motor to be used in advanced applications where many inputs | | | | |
| | and outputs are required: | | | | |
| | two dedicated digital input | | | | |
| | | 20 mA, 0-5 V, 0-10 V, 0.5 - 3.5 V; the factory-fitted pressure sensor is connected to one of these | | | |
| | inputs 5 V voltage supply to potentiometer and sensor | | | | |
| | 5 V voltage supply to potential one analog output, 0-10 V | | | | |
| | | iputs or open-collector outputs | | | |
| | two configurable digital if two Pt100/Pt1000 inputs | | | | |
| | LiqTec, dry-running prote | ection sensor input | | | |
| | Grundfos Digital Sensor i | | | | |
| | 24 V voltage supply for set | | | | |
| | two signal-relay outputs (| | | | |
| GENIbus connection | | | | | |
| | interface for Grundfos CIM fieldbus module. | | | | |
